## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-17, drawn to a method of inhibiting cell proliferation and or cell cycle progression using a bacterial toxin and inhibitor of said toxin.

Group II, claim(s) 18, drawn to a composition comprising a bacterial toxin and inhibitor of said toxin or nucleic acid encoding a bacterial toxin and inhibitor.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature linking groups I and II appears to be a bacterial toxin and an inhibitor of said toxin.

However, Molin *et al.* (U.S. Patent 5,670,370) teach a biological containment system where eukaryotic cells can be transformed with a bacterial *hok* gene (a toxin gene) such that in the presence of an inhibitor (anti-sense RNA or chemical agent) the gene is not induced, but in the absence of the inhibitor, the toxin is expressed and cell death occurs (see column 6, lines 55-60; col. 20, 20-30; col. 20, lines 53-60; col. 21, lines 3-24).

Art Unit: 1645

Therefore, the technical feature linking the inventions of groups I and II does not constitute a special technical feature as defined by PCT Rule 13.2, as it does not define a contribution over the art.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
